Beasley Named Prof. Emeritus

Titus W. Beasley, who has served as professor of Political Science and History at Southwest Baptist College since 1931, has been elevated by the board of trustees to Professor Emeritus. Professor Beasley will receive a special citation from the trustees in appreciation for his years of distinguished service.

He will continue his employment at the college indefinitely serving in an advisory capacity in academic development. His wealth of knowledge makes him unusually well qualified for this kind of work.

Professor Beasley has earned the love and respect of his colleagues and students alike. Few men stand as tall in the opinion of their friends as the southern gentleman and scholar from Virginia.

Professor Beasley is a native of Appomattox County and one of its most distinguished sons. He is a brother of Mr. Grover P. Beasley, Sr. of the Hollywood community. The above clipping is from The Bollivar, Missouri Herald of Feb. 7, 1963. We are proud that Prof. Beasley is one of our valued family of subscribers. — Editor.

On a building a plaque had been affixed to perpetuate the memory of a famous writer who had lived and died there.

After the ceremony two "men of letters" went off forether.

"I say, old boy," said the first, "do you think they will put a plaque outside my house when I die?"

"Why, surely."

"What do you think they'll put on it?"

"Room To Let."

Seven And One-Half Pound Bass

James C. Womack of Evergreen, above left, caught a seven and one-half pound bass in the farm pond of H. A. (Gus) Torrence on April 12. Almost any angler could say, "That's quite a fish," and definitely a true fish story, as the photograph indicates.

Local Resident Talks To Leon Gillis Family

"Last Wagon West"

Robert Wooten, of Appomattox, talked with the Leon Gillis family in Buckingham County last week as they made their way to Appomattox — thence to Richmond for presentation to Governor Harrison on Monday about 2:30 p.m.

The eight - member Gillis family, their team, and the covered wagon with which they traveled across the United States, were this time being taken by motor truck to Richmond.

The Gillis' family was in Appomattox in 1961 and was given extensive newspaper coverage in the TIMES. Wooten talked with them at that time, and said he enjoyed renewing the acquaintance. He mentioned that one of the horses used by the Gillis' in the first long trip has died and been replaced.

GILLIS, a former restaurant and sporting goods store owner, said the family plans to remain in Richmond until they leave for a trip through Europe and Russia in June — again by covered wagon.

They will be in Europe, "as long as it takes to see what we want to see," said Gillis, in his early 40s.

While in Europe he said he plans to write a book, "The Last Wagon West," which will be a diary of their 294-day trip across the United States which began in September, 1961.

After they return from Europe they plan to appear at the 1964 World's Fair in New York until the beginning of the school year.

And how long since you saw a flying squirrel, raccoon, gray treefrog, white - footed mouse, fowler's toad, and the copperhead snake? They prowl mostly at night.

One of the signs of the times, is the reluctance of motorists to offer a ride to "hitchhikers." I passed a pair of such recently, and then came by again four hours later. They were still there thumbing.

Christmas Story, out of season: Sis, aged 16, asked if she couldn't open the record player she already knew she was going to get from Santa Claus, so she could invite some of her boy friends in to dance while Father was trimming the tree.

Buzzard Blunders; Breaks Bill

Robert Brake, area forester, for Chesapeake Corporation, West Point, Va. was traveling in his International Scout truck along Route 26 east from Bent Creek to Appomattox Tuesday morning, April 23. He said that two buzzards on the road flew up in front of the truck. "One didn't make it." Brake explained. Impact of buzzard into windshield smashed most of the right hand side of the glass—killing the buzzard and imprisoning it half in and half out of the truck. Brake estimated the weight of the bird to be about six pounds, with a wingspread of about four feet.

Lt. Hanenkrat Completes Course

Army 2nd Lt. Frank C. Hanenkrat, 23, whose wife Linda, lives in Prospect, has completed an eight - week officer orientation course at The Infantry School, Fort Benning, Ga.

The lieutenant was graduated from Appomattox High School in 1957 and received his bachelor of arts degree from the University of Richmond in 1961. A member of Scabbard and Blade society and Pi Kappa Alpha and Phi Beta Kappa fraternities, he also attended the University of Washington, Seattle. His parents, Mr. and Mrs. William F. Hanenkrat, live on Rt. 2, Appomattox.

Then, said Gillis, he hopes to return to Virginia and start a new career in public relations and writing.

4-H News

The regular monthly meeting of the Vera 4-H Club was held April 10th, 1963. The meeting was called to order by the president, David Drinkard. Judy Goin read the Bible and Mrs. Gunter lead our prayer.

Mr. Moody gave a talk on electricity and how to use it in our homes. He showed us lamps of different kinds and shapes.

Afterwards there was no further business so the meeting was adjourned by all members standing repeating the 4-H Club pledge.

April Reception Honors Newlyweds

Spring flowers were used to decorate the lower floor of the home of Mr. and Mrs. William E. Dickerson, of Spout Spring, when their daughters, Mrs. Howlette B. Martin, Mrs. Richard K. Lawson, and Mrs. E. Hancock Frazier entertained with an afternoon reception honoring their nephew and his bride, Mr. and Mrs. Homer C. Babcock, Jr., on Sunday, April 21.

The dining room table was centered with a floral arrangement of white and green accented by white tapers in silver candelabra. Mrs. George Collins poured. During the afternoon approximately sixty - five guests called. Mr. and Mrs. Babcock are now making their home in Hamlet East in Alexandria.

We Forgot To Mention .....

We forgot to mention on April 18 that the Ruritans of Oakville also deserve credit for the establishment of the first aid class pictured on page one. The Ruritan organization sponsors many fine projects, this one among them, and even though headlines don't always appear to announce the fact, the community and county is grateful to hard-working Ruritans for many improvements and county betterment.

Sheriff Taylor Seriously Hurt

Sheriff Harold C. Taylor of Isle of Wight County was critically wounded Saturday, May 4, presumably by a parole violator and convicted rapist, Kelly Bell 47, a Newport News Negro, was treated at a Suffolk hospital for scattered buckshot wounds and taken to the state penitentiary in Richmond after his capture Monday. Some 250 police National Guardsmen and volunteers along with bloodhounds tracked Bell through jungle like woodland south of Windsor, and finally cornered him near a farmhouse close to the village of Waters.

Sheriff Taylor is married to the former Marrinda Ramsey, of Pamplin. He had been living in Pamplin when he was appointed a State Trooper in 1952. He successfully ran for sheriff of Isle of Wight County in 1955.

How Photogenic Are You

Do you get high marks on your camera test?

Let's assume that your eyes, nose, mouth, chin and hair are strictly photogenic. How about your chest — the inside of it, that is? Had a picture taken lately?

A chest X-ray, no matter how good - looking, will never get you a movie contract. But it will tell your doctor a lot of things he ought to know about you. It will tell him how healthy your lungs are.

For anybody whose reaction to the tuberculin test is positive, chest X-rays annually or as often as directed by a physician are a "must". They are also considered routine for people over 45. That's because active tuberculosis and other chronic diseases are more likely to develop in middle - aged and older people than in the young.

Over and done with in two or three minutes, a chest X-ray examination adds up to a minimum investment of time and trouble for a maximum return in health precaution. Without it, you can sit for handsome portraits or snapshots — but how can you tell how "photogenic" you really are?
